EXPLANATORY NOTES

Introduction

This publication is issued each month as a supplement to the annual *Catalogue of Publications, Australia* (1101.0) of the Australian Bureau of Statistics, which lists current ABS publications and gives brief descriptions (abstracts) of their contents. In addition, a *Publications Advice* (1105.0) is issued each Tuesday and Friday listing publications released on the day of issue and expected releases on the following five days (Canberra Office) or two days (State Offices).

2. Significant occurrences in ABS Publishing are highlighted in the section Publishing News which follows the list of publications issued during the month. Publishing News contains brief descriptions of the contents of new publications, describes changes in ABS publications and shows other information of interest to users of ABS publications.

Publication prices

3. Two prices are shown for each priced publication. The first price given is the 'over the counter' price while the second includes packaging and postage at ordinary rates within Australia. Overseas clients should add 10 per cent of the second price to meet the cost of overseas surface postage. Airmail rates are available on request.

4. Where no price is shown the publication is free.

Mailing list service

5. Clients who wish to receive free or priced publications on a regular basis may use the ABS computerised Publications Mailing List (PML) Service. Further details and order forms are available from any ABS office.

6. Clients (or subscribers) who already use the PML Service and who wish to amend their requirements should quote their account number when contacting ABS. The account number is shown at the top left hand corner of the address label used to despatch publications to clients.

7. Renewal notices are sent to all subscribers annually in respect of the subscription year commencing on 1 January. Payment for priced publications is required in advance and should accompany renewal notices returned to ABS.

Statistical information service

8. Each ABS office has an Information Service to assist clients. The service is designed to answer inquiries from clients on available official statistics, including statistics not published for economic reasons. Unpublished statistics cover a variety of topics such as population, dwellings, building, imports, exports, shipping, etc., in the form of computer printout, microfiche, magnetic tape or specially prepared tables.

9. In cases where a considerable volume of data has to be specially extracted or where a regular statistical service is required, a charge may be made.

Statistics on VIATEL

10. Selected economic, social and demographic statistics are available on VIATEL *656#.

Selected Annual Publications Released in June 1986

New South Wales in Brief, 1986 (1303.1)

Other Publishing News

Overseas Arrivals and Departures, Australia (3401.0) issued on 3 June 1986, was a combined issue for the months of August and September 1985.

Exports and Imports (Balance of Payments Basis) At Constant Prices, Australia, March Quarter (5332.0), issued on 17 June 1986, included for the first time a breakdown of imports f.o.b. into exogenous and endogenous categories. Endogenous imports are further disaggregated into consumption goods, capital goods and other goods. The publication also includes, for the first time, percentage changes in Australia's terms of trade. In addition the publication includes minor revisions to the constant price estimates for exports and imports of services over the full historical period of data and some revisions to exports of sugar, sugar preparations and honey in the seasonally adjusted series.

Stocks Owned by Private Enterprises in Selected Industries and Sales of Goods Manufactured by Private Manufacturing Enterprises Australia, March Quarter 1986 (5629.0), issued on 18 June 1986, indicated that indexes of manufacturing production published in Quarterly Indexes of Manufacturing Production, Australia (5219.0) are largely based on data from the survey of stocks and sales published in Catalogue No. 5629.0 and that the movements shown by the various sets of estimates are not necessarily consistent because of differences in the concepts underlying them.

Price Indexes of Articles Produced by Manufacturing Industry, Australia, March 1986 (6412.0), issued on 4 June 1986 noted that prices used in compiling the all manufacturing industry index are exclusive of excise and sales taxes and the index therefore does not reflect the effects of increases in excise on a range of refined petroleum products.

Building Approvals, New South Wales, Preliminary (8730.1) this publication is now discontinued because the need for it was reduced as a result of improved timeliness over recent months in the release of the final monthly publication Building Approvals, New South Wales (8731.1)

Interstate Road freight Movement, Australia, December Quarter 1985 (9214.0), released 5 June 1986, noted that, commencing with September quarter 1985, interstate freight movement statistics include additional enterprises identified during 1984-85 as being in scope for the quarterly collection.

An occasional paper, Statistics on Wages, Earnings, Income and labour Costs: A guide to their concepts, Measurement and Usage (1986/1) was released on 24 June 1986. It discusses the various statistical measures of wages, earnings, income and labour costs produced by the ABS and their conceptual and definitional relationships. It also highlights the particular strengths and shortcomings of the various measures so as to provide guidance on the suitability of the measures most appropriate for particular analyses.
